

Protect your grid investment by adding a protective cover

X-rays grids are fragile and expensive pieces of equipment. Extend the life of your grid by having it encased in a grid enclosure from Z&Z Medical.

Grid Pro

- Lightweight, high grade, aluminum
- Great for portable usage
- Vinyl coating for patient comfort
- Reinforced welded corners
- Available in 10x12, 14x17, and 24x30
- Custom manufactured as ordered
- Easy-out handling

Flat Encasement

- Made of lightweight polypropylene
- Fully enclosed
- Most cost-effective grid protection

Drop on Encasement (Grid Cap)

- Made of lightweight polypropylene
- Corners are powder coated steel for durability
- Sleek, comfortable design for easy handling

Encasement with Channels (Slip On)

- Most versatile grid stabilizer
- Made of lightweight polycarbonate material
- Cassette easily slides in and out of channels
- Provides minimal disruption to patient during multiple exposures

Aluminum Drop on Encasement (Grid Cap)

- Made of lightweight aluminum
- Comfortable design for easy handling

Our grid encasements carry a one year warranty against manufacturer defect and custom orders are always accepted.
